Advanced Pro-forma Modeling Using Excel

This ULI workshop is designed especially for real estate finance professionals who want to build complex financial models using Excel. Students will develop their own spreadsheets for different property types that will allow them to model any real estate investment scenario quickly and effectively.

Students will learn advanced tools in Excel and apply them immediately to their own Excel models. Important skills such as building construction loan and development models, using statistical skills to better understand real estate investments, developing reusable models, and auditing existing models will be addressed in detail.

Students taking this workshop are expected to have a basic knowledge of Excel and a firm grasp of basic real estate finance concepts such as time value of money, internal rate of return (IRR), and net present value (NPV).

A laptop with a CD drive and Excel 2000 or later is required.

Who Should Attend

Real estate finance professionals interested in expanding their knowledge of financial concepts and Excel tools.

Overview

Urban Land Institute

Urban Land Institute is an independent, nonprofit, education and research organization that is supported by its members. Its mission is to provide responsible leadership in the use of land in order to enhance the total environment.

ULI sponsors educational programs and forums to encourage an open international exchange of ideas and sharing of experience; initiates research that anticipates emerging land use trends and issues and proposes creative solutions based on that research; provides advisory services; and publishes a wide variety of materials to disseminate information on land use and development.

Established in 1936, the Institute today has some 30,000 members worldwide representing the entire spectrum of the land use and development disciplines.

ULI's education program is a multifaceted endeavor, designed to improve the level of expertise of preprofessional and professional land use and development practitioners.

Workshop space is limited. Early registration is advised.

Instructor

Joshua Kahr

Principal, Kahr Real Estate Services, New York New York

Joshua Kahr is the Principal of Kahr Real Estate Services, a consulting firm that specializes in financial modeling, market analysis, and financial software training. He has trained hundreds of people in how to use Excel to model real estate investments for numerous clients including Wall Street investment banks, top business schools, and investment firms.
